

# SHOGUN

GETTING THE JOB DONE SINCE '71

# GO BIG

## LIKE 80'S HAIR BIG

We went **BIG** in the 80s. Big hair, big suits, big phones and, starting in 1982, the first big FUSO heavy-duty truck. Now it's time to go even bigger with the new FUSO Shogun 530, a 13-litre hauler with the biggest power figure of any Japanese truck – 530 horsepower. It can haul big weights too, up to 70 tonne GCM, and comes packed with advanced safety systems.\*

**FUSO Shogun 530. Because bigger has always been better.**

\*For further details of operating parameters please refer to the FUSO Shogun Owner's Manual

## THE NEW FUSO SHOGUN 530

**530 HORSEPOWER**

**MORE PULLING POWER**

**CLASS-LEADING TORQUE**

# A SHOGUN FOR EVERY JOB

Tried and tested on Australian roads, the legendary durability of the FUSO Shogun is uncompromised. Equipped with the latest safety and technology, the Shogun strikes the perfect balance between power, efficiency, comfort and reliability.

Available in 4x2, 6x2, 6x4, and 8x4 configurations to suit a variety of applications.

# THE SHOGUN RANGE

## SHOGUN 530

Things just got a whole lot bigger with the arrival of the all-new Shogun 530. German engineering meets Japanese reliability in the most powerful Japanese truck available in Australia. And the only Japanese truck to exceed 500 horsepower.

## SHOGUN 360

Introducing the FUSO Shogun 360, a heavy-duty workhorse in a league of its own. This truck sets the category standard when it comes to safety, power and efficiency.

## SHOGUN 460/400

Introducing the Shogun 460 and 400. Heavy-duty performers built to handle the toughest jobs. Loaded with the latest in safety features and engine technology, this truck is suited to a wide range of applications,

from short-haul container work through to B-double operations. With an ergonomic cabin and an ADR compliant bunk, the driver is equipped with everything they need to get the job done efficiently and safely.

\*70T GCM is also available with a Rear Axle Ratio (RAR) of 4.625.

# UNBEATABLE POWER AND TORQUE

## ENGINE

The Shogun 530 is the most powerful Japanese truck on the market, delivering 390kW and 2600 Nm of torque.

The efficient 12.8L engine features an asymmetric turbo for improved response and performance. With higher power and improved fuel efficiency than the previous generation, the all-new Shogun 530 is capable of a mighty 70t GCM, letting you move more than before.

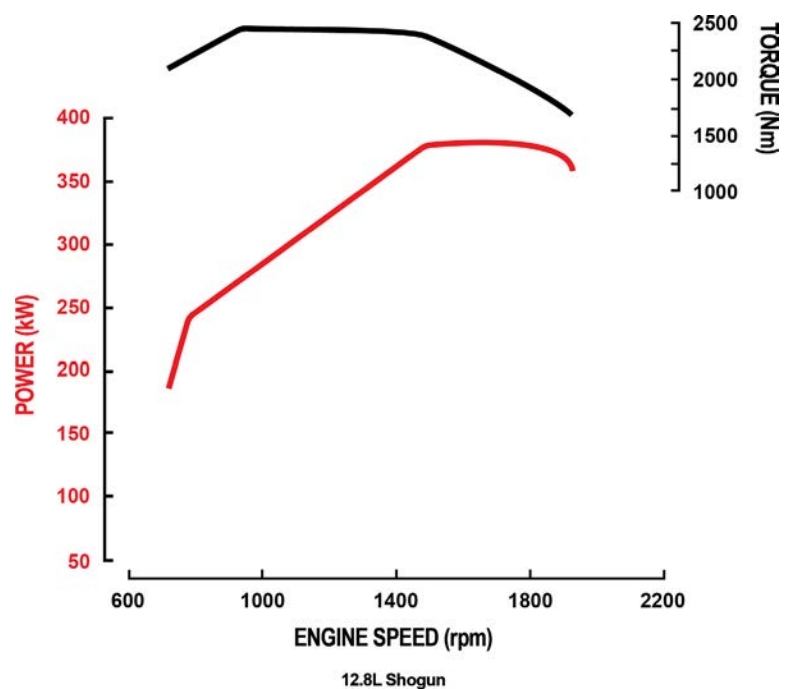

7.7L and 10.7L engine options available.

## GEARBOX

12- Speed AMT for seamless shifting and acceleration.

FUSO 6R30-T5 (390kW/2600Nm)

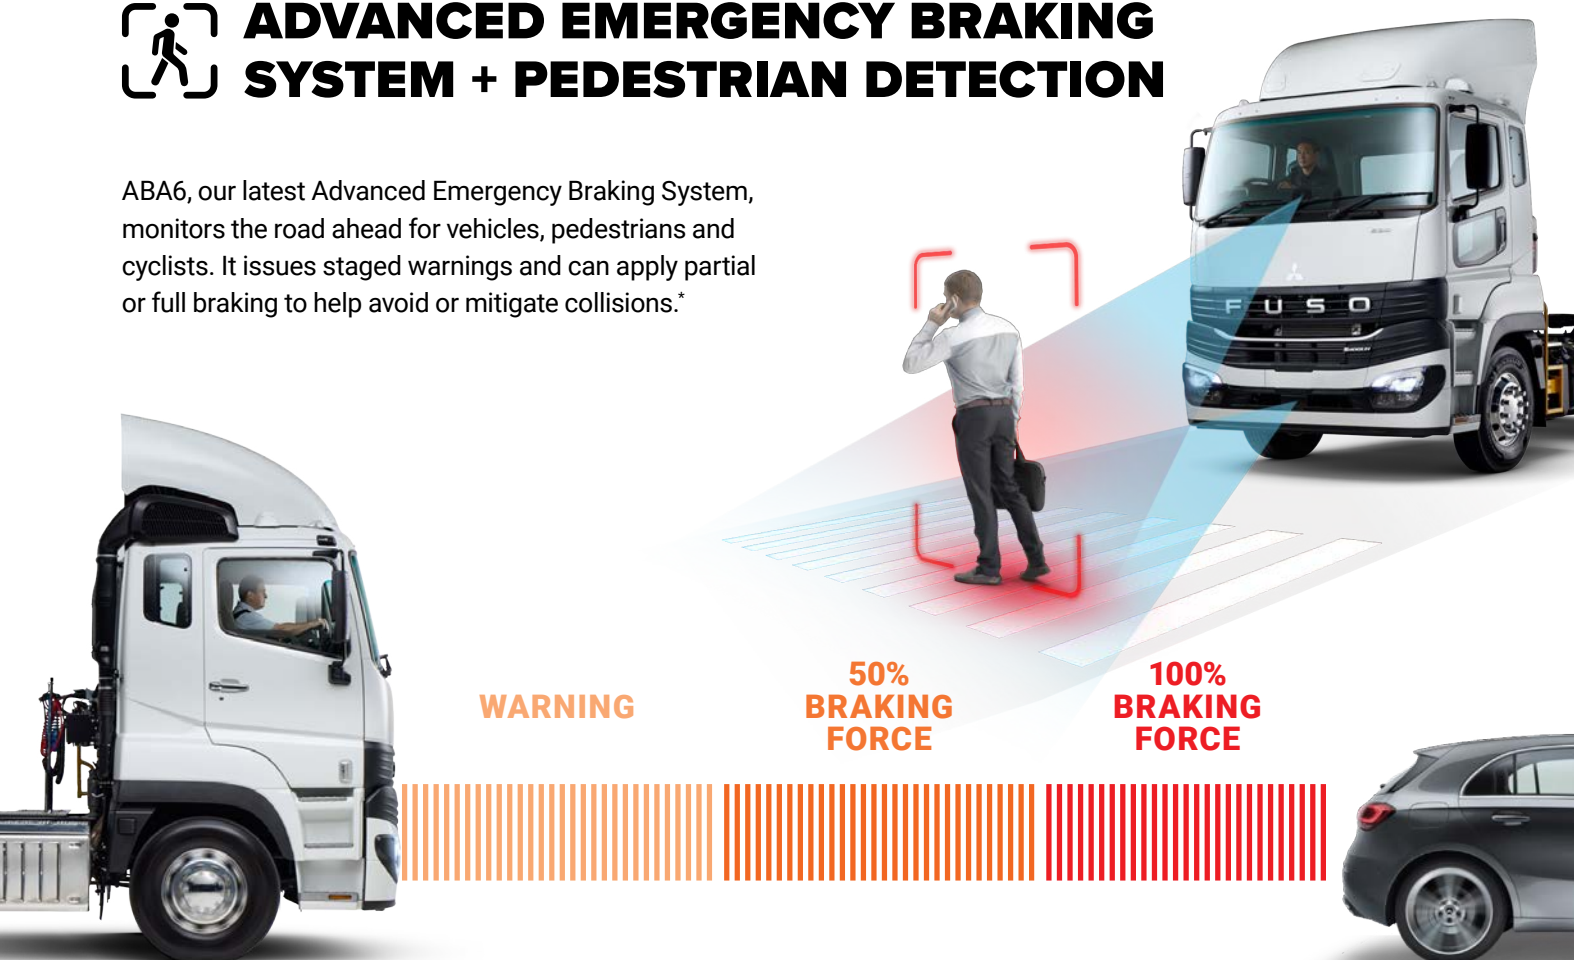

# SAFETY COMES FIRST

At FUSO, safety is not an optional extra; it's standard. We understand that protecting your employees and vulnerable road users is paramount, which is why FUSO Shoguns come equipped with five radars and an integrated camera.

## **ADVANCED EMERGENCY BRAKING SYSTEM + PEDESTRIAN DETECTION**

ABA6, our latest Advanced Emergency Braking System, monitors the road ahead for vehicles, pedestrians and cyclists. It issues staged warnings and can apply partial or full braking to help avoid or mitigate collisions.\*

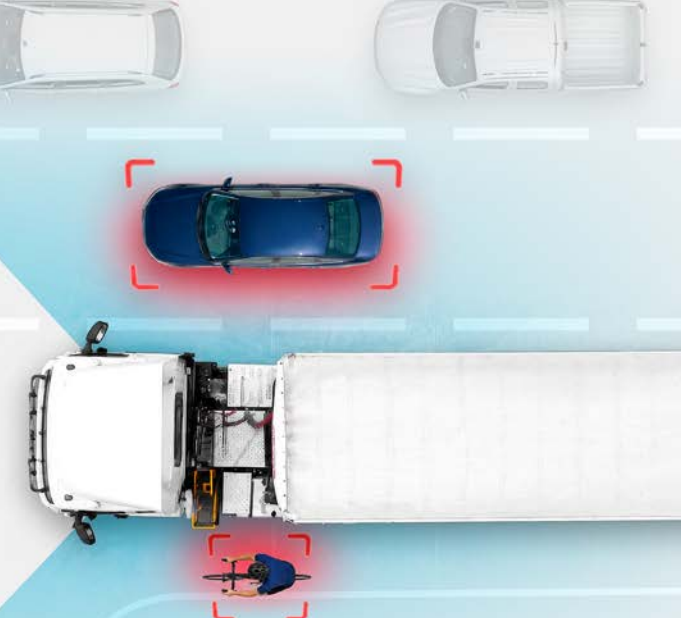

\*For further details of operating parameters please refer to the FUSO Shogun Owner's Manual

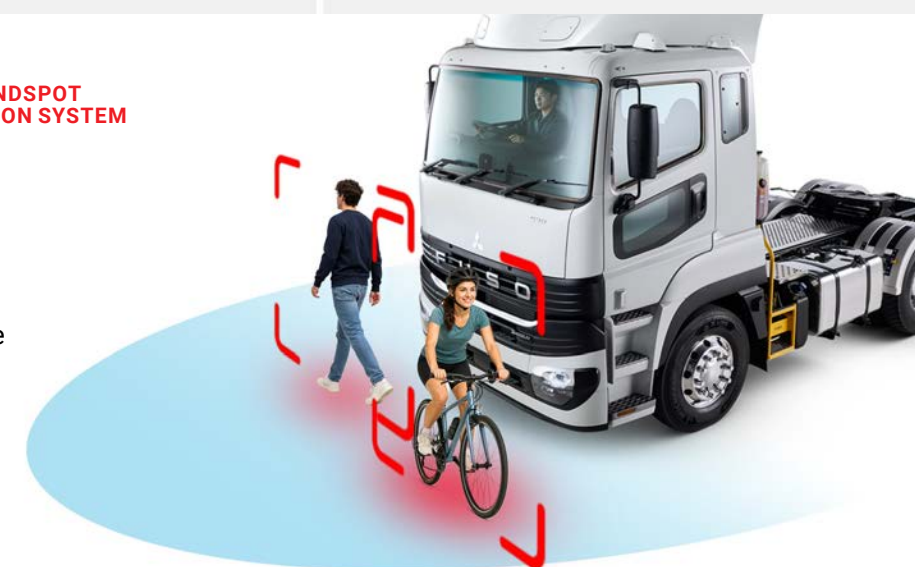

## **ASA 2.0** ACTIVE SIDEGUARD ASSIST 2.0

ASA 2.0 uses radars to monitor both sides of the FUSO Shogun for pedestrians, cyclists, vehicles and obstacles. It provides visual and audible warnings and can apply low-speed automatic braking when turning left to help mitigate side-impact collisions. If a trailer with ABS or EBS is connected, the detection range is expanded to the trailer as well.\*

## **FBSIS** FRONT BLINDSPOT INFORMATION SYSTEM

FBSIS monitors the area directly in front of the stationary vehicle using a front camera and radars. The system warns the driver with visual and audible alerts when pedestrians or cyclists are detected in the front blind spot.\*

## **AAA** ACTIVE ATTENTION ASSIST

AAA monitors driver behaviour and eye movements using a facial recognition camera. If signs of fatigue or reduced attention are detected, the system provides visual and audible warnings to prompt the driver to refocus or take a rest.\*

\*For further details of operating parameters please refer to the FUSO Shogun Owner's Manual

## LDWS LANE DEPARTURE WARNING SYSTEM

LDWS uses a front-facing camera to detect if the vehicle starts deviating from its lane without using the indicators when driving on highways. The system alerts the driver with a warning buzzer and a multi-information icon.\*

## IHC INTELLIGENT HEADLIGHT CONTROL

IHC uses a front-facing camera to automatically switch between high beam and low beam according to the surrounding brightness and oncoming vehicles. This prevents blinding oncoming traffic while ensuring you maintain maximum road visibility in the dark.\*

## ASR ANTI-SLIP REGULATOR

ASR monitors vehicle traction using sensors to help detect and prevent the drive wheels from spinning when accelerating on slippery surfaces.\*

## ABS EBD ANTI-LOCK BRAKING SYSTEM (ABS) AND ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)

ABS helps prevent the wheels from locking up under heavy braking or when braking on slippery surfaces. EBD works in conjunction with ABS to control optimum braking power depending on the load of the vehicle.\*

## HILL START ASSIST

Hill start assist prevents the vehicle from rolling back when accelerating from a complete stop on an incline.\*

## ESP ELECTRONIC STABILITY PROGRAM

ESP constantly monitors the vehicle's stability with sensors. If the risk of skidding or overturning around corners is detected, it provides optimal control of motor output and braking force to each wheel.\*

SLIDE OUT

WITH ESP

Front radar (ABA6, FBSIS)

# FUSO CONNECTED SERVICES

## 5 YEARS CONNECTED SERVICE

As part of our commitment to keeping your business moving, when you purchase a new FUSO Shogun you will receive 5 years access to FUSO connected services – Truckconnect\* – at no extra cost.

### AREA MANAGEMENT:

Real-time notifications when your vehicle(s) enters or exits any pre-registered areas.

### TRACK AND TRACE:

Displays real-time position of your vehicle(s) on a map, including the route taken and time parked or stopped.

### TELE-DIAGNOSTICS:

Our 24/7 Roadside Assistance and dealer network remotely receive access to any triggered Diagnostic Trouble Codes (DTCs), should any breakdown occur.

### FLEET MANAGEMENT:

Monitor your fleet's utilisation rate according to distance driven, running time and idle time.

### SAFETY PLUS:

Harsh acceleration and braking events are captured and reported through the portal.

### EFFICIENCY:

Easily track and monitor the energy/fuel efficiency of your vehicle(s).

**SCAN THE CODE OR VISIT [FUSO.COM.AU/CONNECT](https://fuso.com.au/connect) FOR MORE INFORMATION AND TO REGISTER FOR TRUCKCONNECT**

\*Truckconnect registration required for access to the service. Terms and Conditions apply.

# ON THE ROAD AND ON YOUR WAY

We don't just sell trucks, but we also provide peace of mind. FUSO offers a complete package to ensure you aren't caught off guard with our 5-year vehicle warranty, 24/7 Roadside Assistance and 50,000km service intervals.

The FUSO Shogun is built to last, but if something does go wrong, you can be confident knowing that you're covered. FUSO offers up to 5 years/500,000km warranty as standard.\*

Roadside Assistance is available to all customers and across all vehicle models. The FUSO Shogun is covered by our roadside assistance for the duration of the new vehicle and parts warranty, providing it is a manufacturing defect, or the failed part is covered under your Complete Service Plan.

Nobody likes being off the road longer than necessary. That's why FUSO offers service intervals of up to 50,000km, helping your truck spend more time out on the road and less time in the workshop.

When it comes to business, nobody likes unplanned expenses. FUSO Service Plans allow you to manage your finances upfront with genuine parts and labour included where covered under your selected plan at authorised FUSO service dealerships. So not only do you enjoy 50,000km service intervals, there are no surprises at the service desk.

| SERVICE PLANS*                                                                                                                                                                                                                                                  | MAINTENANCE | DRIVELINE REPAIRS | VEHICLE REPAIRS | WEAR AND TEAR |
