DAIMLER TRUCK

FUSO
JOB DONE

NO JOB TOO BIG

No job is too big for the Fuso Shogun. A product of the Daimler Truck family, the Shogun gives you access to an innovative European drivetrain in a proven Japanese chassis. Available in a range of axle, suspension and wheelbase combinations with a choice of engine outputs from 360hp to 510hp. The Shogun range exceeds all needs offering a 16.5-30.8 tonne GVM and a 25-63 tonne GCM.

Fuso is an industry leader in safety and the Shogun is no exception, featuring the latest in active safety systems. Combine this with an industry leading 5 year/500,000km warranty and this truck makes perfect business sense.

FUSO

JOB DONE

A SHOGUN FOR EVERYONE

Tried and tested on Australian roads, the legendary durability of the Fuso Shogun is uncompromised. By selecting the best parts and technology available from the Daimler Truck group, the Shogun is configured to strike the perfect balance between power, efficiency, comfort and reliability.

Available in a range of engine and axle combinations including 4x2, 6x2, 6x4 and 8x4, there is a Shogun to suit every application.

SAFE IN ALL THE RIGHT PLACES

There's a reason Fuso has a reputation for class-leading safety technology and the Shogun range is no exception. At Fuso, safety is not an optional extra; it's standard. Because we understand that keeping your employees and other road users safe is paramount.

- ABA5 – Advanced Emergency Braking System (AEBS)
- Moving Pedestrian Protection
- Lane Departure Warning System (LDWS)
- Electronic Stability Program (ESP)
- Anti-Spin Regulator
- Hill Hold Assist
- Active Attention Assist incl. facial recognition camera
- Proximity Cruise Control with Stop/Go function
- Auto Wipers & Lights
- Intelligent LED headlight control with DRL
- High visibility through signature transom window
- Active sideguard assist available as standard on most wheelbase options

SAFETY AS STANDARD

The S badge is a guarantee that your Fuso comes with safety, built in. At a minimum, vehicles with this badge come with LDWS, AEBS and ESP, at no extra cost.

THE TRUCK THAT OUTPERFORMS, INSIDE

Getting in and out of a Shogun is made easy with driver and passenger doors that open 90 degrees and sturdy grab rails on either side.

The interior space is comfortable and convenient with integrated seatbelts for driver comfort. The layout features advanced meter clusters on the dash and switches on the steering wheel that allow the driver to operate the vehicle without being distracted.

Inside the cabin you'll find all the creature comforts you'd expect from a modern truck, with only one thing missing – noise. We made sure the Shogun is a quiet working environment, ensuring drivers arrive feeling less fatigued and more relaxed than when they left.

- Ergonomic cabin design with driver focused dash layout and digital centre dash display
- Climate control standard
- Steering wheel mounted controls and Push start ignition
- 3-step entry and Air-suspension driver seat
- Multiple storage areas and ADR approved bunk
- 7-inch multimedia unit with Sat Nav, Digital radio, Bluetooth and TMS ready
- Reversing camera, with the ability to support 4 additional cameras

DRIVER VISIBILITY

Thanks to purposefully designed narrow A-pillars and a clever mirror set-up, every driver is assured excellent visibility. A sizeable transom window on the passenger side helps line of sight even further, as does the reversing camera which comes as standard, with the option to install four additional cameras.

POWER MEETS EFFICIENCY

SHOGUN 360 A HEAVY RIGID FIT FOR THE JOB

Introducing the Fuso Shogun 360, a heavy-duty workhorse in a league of its own. Specifically built by Daimler Truck for the Australian market, this truck sets the category standard when it comes to class-leading safety, power and efficiency.

With forward thinking operators in mind, the Shogun 360 is fitted with the latest active safety systems, including ABA5, LDWS, ESP and Driver Attention Assist with facial recognition to mitigate fatigue. It also benefits from 'Active Side Guard Assist' that alerts the driver of objects or pedestrians in the blindspot when turning. Under the cab you've got a high output Euro 6 equivalent 7.7L twin-turbo engine and out back the ability to carry 14 pallets with a low tare weight of just 6950kgs.

- Low height chassis (1011mm-high with 22.5" wheels) and electronically controlled rear air suspension, making it ideal for loading and unloading at docks.
- 11.5m chassis length gives you the ability to carry 14 pallets with a tailgate rear, so you can carry heavier loads for longer distances with ease.

SHOGUN 360

Power to weight ratio is the key to the Shogun 360's flexible powertrain. The 7.7 litre 6S10 Daimler Truck engine uses advanced compound twin turbos to ensure torque is available from down low and builds strongly throughout the rev range, returning peak figures of 360hp/1400Nm. The flexibility of this power delivery is further enhanced by the 12-speed AMT with Eco Roll and Skip Shift functions . A low tare weight of just 6950kg allows the engine to focus on carrying payload rather than a heavy chassis; improving efficiency and increasing profitability for your business.

- 360hp/1400Nm 6S10 7.7L Daimler Truck engine
- Compound Twin Turbo
- PPNLT (= Euro 6) Engine with EGR, SCR & DPF
- Daimler Truck 2-Speed AMT with Crawler Mode, Rock Free Mode, Eco Roll, Skip Shift Function, Eco/Power Mode
- 50,000km service intervals

Range	Available wheel types	Description	Engine (6cyl)	
			Capacity (L)	Power
360	6x2	360hp XXLWB	7.7	260kW/1400Nm
	6x4	360hp XXLWB		

SHOGUN 400 & 460

Shogun Prime Movers come in a range of axle combinations and cab combinations, and the capability to haul up to 63t GCM. Loaded with all the latest in safety features and engine tech that the Daimler Truck group has to offer, this truck is suited for everything from shorthaul container work up to B-doubles. With an ergonomic cabin and an ADR approved bunk, the driver is equipped with everything they need to get the job done efficiently and safely.

The 10.7 litre Daimler Truck engine is bolted to the smooth shifting 12-speed AMT. The OM470 Euro 6 compliant engine delivers an impressive 395hp/2000Nm or 455hp/2200Nm depending on variant, and with extended warranty plus a class leading 5 year warranty – this engine is built for the long haul.

SHOGUN 510

Things just got a whole lot bigger with the arrival of the all-new Shogun 510. German engineering meets Japanese reliability in the most powerful Euro 6 Japanese truck available in Australia. And the only one to exceed 500 horsepower.

Whether you're running a single, or double trailers, the 510's 13 litre Daimler Truck drivetrain- coupled with up to 63 tonne GCM- gives you all the heavy-duty grunt to get the job done.

SHOGUN FV 510

- 510hp/2500Nm OM471 13L Daimler Truck engine
- 6x4 Prime Mover or 6x4 MWB for Tipper/ Demountable bodies
- 7.1t Front Axle
- Air Suspension with ECAS and 2-position memory function
- 26t GVM/63t GCM

SHOGUN 510

To keep your business driving forward you need a truck that's both powerful and fuel efficient. The Shogun 510 has a highly efficient 13 litre Daimler Truck engine, and 12 speed AMT transmission, that delivers a mighty 510hp and 2500Nm of torque with increased fuel efficiency.

Range	Available wheel types	Description	Engine (6cyl)	
			Capacity (L)	Power
510	6x4	510hp MWB Air Susp.	12.8	375kW / 2500Nm
		510hp Prime Mover Air susp		
		510hp Prime Mover Air susp High roof		

- 510hp/2500Nm OM471 13L Daimler Truck engine
- Assymetric Turbo
- Euro 6 with EGR, SCR & DPF
- Daimler Truck 12-Speed AMT with Crawler mode, Rock Free Mode, Eco Roll, Skip Shift, Eco/Power Mode
- 50,000km Service Intervals
